BUILD WITH PURPOSE

Western Red Cedar seedling

SUSTAINABLE NORTHWEST WOOD is the bridge between responsible forestry, beautiful local wood products and the built environment. Our mission is to foster a wood products community where each purchase for the built environment ensures resilience in the natural one.

PLACE Sourced from FSC® certified woodlands, Tribal enterprises, or salvaged from ecosystem restoration projects, all of our siding products are Northwest local. Grown here. Made here.

PURPOSE Wood siding not only protects your exterior from the elements, but adds beauty and design appeal in a durable product that stands the test of time. Buying local, responsibly sourced wood products supports our region's communities and helps improve forest health.

PEOPLE We partner with a network of land stewards, small mills, and fabrication shops throughout the Northwest who make our products. Our team of wood enthusiasts can help you find the perfect siding for your project. Call us or stop by!

SPECIES Tribal Incense Cedar, Douglas Fir (FSC available) and Western Red Cedar (FSC available)

PROFILES Channel Gap (aka Fine Line, Shadow Gap or Nickel Gap), Classic V-Groove (WP4), Faux Board & Batten, Rocky Mountain Rainscreen, Shiplap and a variety of custom profiles.

PRE-FINISHED OPTIONS We recommend Portland based TimberPro Coatings for protecting your exterior siding. Ask our sales team for more information about prefinishing & fire treatment options.
